Back to school!!!

Important Academy News

Summer is coming to an end! We are excited about the fun and activities that are planned for the warmer weather.

July- This month we are having fun in the sun. The children are having water play days every week. School age on Monday's, Early preschool on Wednesday's and Preschool/Pre-k on Friday's.

Preschool/Pre-k registration enrolling now

August- is National back to school month. This month we are ending our summer with an end of the year summer carnival on Aug.9th from 4-6pm. School will begin for our school-age children and our preschool/Pre-k program will begin.

September- is National Learning and Development Month. This month we will be sending home information about how children develop through learning experiences. We will also include activities that you can do at home. Since it is the beginning of the new school year we will also discussing "all about me" this way we can learn more about the children and their family. Poster boards will be sent home for each child, be creative as can be and add lots of photos.

Children are born naturally curious. We enrich that curiosity with a research-based curriculum built to develop your child's confidence, creativity, and lifelong critical thinking skills.
